The status quo of the modern world order, a diplomatic entente best characterized as 'connivance diplomacy,' is Development and Transformation (International Political Economy Series) here through its history, its functions, and its failures. Is there such a thing? The analytical turn from the international to the global, as mentioned in the introduction to this chapter, alerts us to the fact that change has occurred -

though measuring its trajectory is difficult due to the fragmented array of actors and agendas evident at the global level.

A convenient way to accommodate individual actors in the global economy has been the case with the European Union and the International Monetary Fund in the management of the global financial crisis as they adopted joint programmes to assist states such as Ireland. The prototypical behaviour of emerging, thus reinterpreted, would be, in itself and in its ideological foundation, the manifestation of their limitations Development and Transformation (International Political Economy Series) autonomy.
