The Moon and Madness by Niall McCrae (ebook)

Biologists as well as artists and poets have long thought about the Moon's influence on living creatures. Despite all of the beliefs, no valid scientific study has ever found a significant extraordinary effect of the full Moon on life on Earth. The lunar effect is a real or imaginary correlation between specific stages of the roughly Dan Caton, Birth Rates and the Phase of the.

Can a full Moon affect behaviour? > Dr Karl's Great Moments In Science (ABC Science)

J Clin Psychol. Oct;36(4) The moon and madness: a comprehensive perspective. Templer DI, Veleber DM. Previous research that related lunar.
