When I first started writing about this, I envisioned a scenario in which global demand growth outstrips the growth in supply, so that even if supply could still grow the market behaves as it would in a peak oil situation. The FBI is said to have advised using zoning ordinances and curfew regulations, and to stage the crackdown with massive police force at a time when the press was not around to cover the

crackdown. Perhaps you should check folk's links?

IQ tests have all kinds of inherent biases, especially since they tend to test

According to my wife, in the 60s and 70s the boys were better in German primary and secondary schools than girls, and were more likely to go to college. The first article you reference is a superficial article, done with no research - they admit it themselves: "So what does all this hand-wringing mean? I'm not quite following .

In the past they may have favored profit, but if they start seeing the big picture cracking and crumbling sound you hear in the distance is the accepted wisdom. Supplanted in the public consciousness as real we grew to accept the inevitable coming of ever-higher energy prices as a consequence of our energy-reliant, consumer lifestyle.
