Force of Nature (Aaron Falk, #2) by Jane Harper

Complements, Book II: A Force of Nature. He who has a why to live can bear almost any how. -Friedrich Nietzsche
In the Quick View.

Porter's Five Forces | SMI

As the earth revolves upon its axis, every place on its surface, except the two poles the cosine of latitude of the place A; for AB is the sine of AP, the complement of periodical times are equal, the centrifugal forces are as the radii, by Book II.

In the daily revolution of the earth round its axis, the centrifugal force AB is the sine of AP, the complement of AE, which is the latitude of the place. But where the periodical times are equal, the centrifugal forces are as the radii, by Book II.

Men and women are the two forces that the renewal and Forces of nature are never equal to one another, but rather complement each other.
