CateKennedy. Brian Bargh. My personal favorite among this issue's stories, Mary Slowik's "Teeth," takes the storyteller's doctrine dig where it hurts to a brilliantly

literal level. Were he to stay on these drugs at these doses longer-term, he would face stunted growth, diabetes, cataracts, and high blood pressure—all before he was old enough to vote.

Much of the research into its therapeutic potential comes from other countries.  
Ulyseas. Wald, J.
